MUNENDRA PAL

PROFESSIONAL SUMMARY

Python/Django Backend Developer with **hands-on experience** in developing **REST APIs** and backend systems, including work on **live production applications.** Skilled in Django, **Django REST Framework (DRF), and MySQL.** Passionate about backend development and seeking a **Junior Backend Developer role.**

TECHNICAL SKILLS

- **Languages: Python, HTML, CSS, JavaScript (Basics)**
- **Frameworks: Django, Django REST Framework (DRF)**
- **Databases: MySQL, SQLite**
- **Tools & Platforms: Git, GitHub, Postman, Figma**
- **APIs: REST API development & integration**

PROFESSIONAL EXPERIENCE

Python / Django Developer – AgencyEleven100 **(Sep 2025 – Feb 2026)**

- Worked on **live production applications** using **Python and Django.**
- **Developed backend** modules including **user authentication**, **role-based access**, and CRUD operations.
- Designed and optimized **MySQL/SQLite** database schemas.
- Built and integrated **REST APIs** for frontend communication.
- Collaborated with **UI/UX** designers using Figma to implement **user-friendly interfaces**.
- Used Git and GitHub for **version control** and team collaboration.

Key Backend Projects:

- **Haidakhandi.org– Community Directory Platform**
  Built a community-driven platform enabling user registration, profile management, and advanced search functionality with multiple filters to connect community members.

- **AWDORG Foundation – Crowdfunding Platform**
  Contributed to the development of a crowdfunding platform by implementing Razorpay payment gateway integration and supporting selected backend modules for fundraising campaigns.

Software Development Intern (Python/Django) — Ducat India **(Nov 2024 – May 2025)**

- Contributed to **backend development** including **user authentication**, form handling, and **database operations.**
- Used **Git & GitHub** for version control and **collaborative** coding practices.
- Wrote **clean, maintainable code** and optimized **MySQL queries** for better performance.

Projects:

Banking Automation system – Tech Stack: Python, MYSQL

- Created a **Banking Automation System** using **Python and SQL** to manage **user accounts and transactions**.
- Added features like **balance check, deposit, withdraw, transfer, and transaction history.**
- Used **SQL database** for storing and **managing all user and account details**.
- GitHub: https://github.com/manoogangwar

Education

Master of Computer Applications (MCA) **(July 2022 – Nov 2024)**

Dr. A.P.J. Abdul Kalam Technical University, Lucknow

- CGPA: 7.29/10
